MANDATE

Covid-19 Emergency Motion

Submitted by: Seán Masterson (Independent Senator)

Seconded by: Luke Buckley (Independent Senator)

Student Senate notes with concern:

Many students have been advised to self-isolate for a period of two weeks due to precautions for the Covid-19 virus. Students are not been given any leniency in regards to continuous assessment whilst they are self-isolating.

Student Senate believes:

This issue must not persist and action should be taken by the University to provide suitable arrangements for those who are self-isolating.

Student Senate notes:

A series of complaints and issues have arisen with regards to student's wellbeing and their education due to the Covid-19 virus.

Student Senate therefore mandates:

The VP Education and the VP Welfare and Equality to investigate issues and complaints surrounding the Covid-19 virus thoroughly.

Student Senate further mandates:

The VP Education and the VP Welfare and Equality to take appropriate action as dictated by the Executive to work towards remedying this situation.

This Mandate shall lapse on the 1st of July 2020.
