## MANDATE

### **International Students Orientation**

Submitted by: Niamh Lynch (Study Abroad & Erasmus + Senator)

Seconded by: Seán Masterson (Independent Senator)

#### **Student Senate notes:**

Erasmus and International students (hereinafter “international students”) are lacking dedicated events organised by MSU.

That even though the MU International Office does a formal introduction to participants, most of them are not aware of all the services, cultural activities, entertainment and opportunities for engagement with our student community.

That even though the MU International Office does a formal introduction to participants, most of them are not aware of all the services, cultural activities, entertainment and opportunities for engagement with our student community.

#### **Student Senate believes:**

That International students should be included as much as possible in our campus life through MSU events.

#### **Student Senate therefore mandates:**

That MSU will organise an “International Student’s Orientation Day” designed for introducing them to MSU and all the great practical student information about Maynooth and Irish culture.

That the event should be in collaboration with other dedicated Societies and Clubs who will be interested in actively promoting the event.

That the event shall be ran at least every semester with no intent to clash with the event organised by MU International Office.
