## Mandate

### **Sourcing and Display of Consent and Sexual Harassment Pole Banners**

Submitted by: Independent Senator (Luke Buckley)  
Seconded by:

#### **Student Senate notes:**

There is an epidemic of rampant sexual harassment/assaults across the island of Ireland and a severe lack of knowledge of the meaning of consent amongst the population.

#### **Student Senate believes:**

Sexual harassment and assaults must be not only challenged but prevented before the act is committed, both across campus and the Maynooth area.

#### **Student Senate therefore mandates:**

The Vice-president for welfare and equality works to lobby the university on the sourcing and displaying of the Consent and sexual harassment pole banners across campus. These pole banners will have messages about consent, sexual harassment and sexual assault. These will act as a reminder to would be assaulters that alcohol abuse isn't consent, being in a relationship isn't consent and so on( please find sample images attached).
